The 1951 plan for retail commodity turnover was fulfilled 99.2 percent, including 103 percent for turnover in public eating enterprises.

The fourth reduction of state retail prices on industrial goods and food products, which was effective 1 March 1951, caused a further increase in their sales in state and cooperative trade.

Sales to the population of the following goods increased considerably in 1951 over 1950: meat, sausage products, sugar, confectionery products, footwear, sewn goods, furniture, household utensils, radio appliances, musical instruments, and other consumers' goods.
